RAJYA SABHA

The revamped Programmes are a little over two years old and at this stage it would be too early to consider any revamping of these Programmes.

(c) The implementation of the Programmes is a joint responsibility of the Centre and the States. While, the programmes are formulated by the Centre, the States are responsible for their implementation. At the stage of formulation of the programmes, the States are extensively consulted, besides experts in the field. Both are equally accountable for the poverty alleviation agenda of the country. The States also share the responsibility of the funds for all the Programmes *i.e.* in the ratio of 75% by the Centre and 25% by the States. The Centre and the States, therefore, are equally concerned about the quality of implementation of these Programmes. In view of the above and because of the federal set up of the country, the dual control over the Programmes is unavoidable.
